

Snowy 2.0 Work Notification

Tantangara | October 2020

Activity: Construction activities to establish Tantangara work site

Location: Tantangara Road and Quarry Trail Road at Tantangara Reservoir

Timing: From 29 October to 30 November 2020, daily from 7am-6pm

Future Generation is starting construction works at Tantangara.

Snowy 2.0 Main Works at Tantangara will involve tunnelling activities to link the existing reservoir to Talbingo, constructing water intakes at the reservoir, and building camp accommodation.

Current work will involve

- Establishing temporary compounds for storage & materials laydown and crew facilities.
- Vegetation clearing.
- Preparatory road works along edge of Tantangara Road.
- Geotechnical investigations.
- Large trucks delivering plant and equipment.
- Installing erosion sediment controls.
- Installing fencing, signage and security.

Work will require a range of plant and equipment such as light vehicles, earthmoving equipment, and semi-trailers delivering equipment, material and temporary buildings to site.

For more information

Thank you for your understanding while we carry out this work. If you have any questions please contact the Snowy 2.0 Community Information Line 1800 766 992 (1800 Snowy 2) or Future Generation Joint Venture via email community@futuregenerationjv.com.au

What to expect from 28 October to 30 November

- Crews will mobilise to site to establish temporary storage compounds and facilities, and prepare site for construction.
- Partial closure of Tantangara Road and reduced speed limit during site establishment and preparatory construction activities.
- Traffic control will be in place as required to help manage access on Tantangara Road.
- Quarry Trail Road on the western side of Tantangara will remain closed until further notice.
- Construction work is not expected to impact the boat ramp.
- The work is being planned to ensure minimal disruption for recreational park users, local water craft, and to minimise impact to the environment.

The work front on Tantangara Road is approx. 15km from the Snowy Mountains Highway.

Further notifications about construction at Tantangara will be issued as work progresses.

Snowy 2.0 is a major pumped hydro expansion of the Snowy Scheme and will continue to create jobs and business opportunities across the region. It is the largest renewable energy project in Australia that will add 2,000 megawatts of energy generation and provide 175 hours of storage to ensure the stability and reliability of the system. Snowy 2.0 will link the two existing Snowy Scheme dams, Tantangara and Talbingo, through underground tunnels and an underground power station with pumping capabilities.
